SKILLS

Front-end

React · Svelte(Kit) · Tailwind CSS

Back-end

NodeJS (Express) · Flask

Databases

SQL (Oracle, MySQL) · MongoDB

Other languages

Java · Python · C

Tools

Git · Unix · Figma · Office

LANGUAGES

French

Native

English

Professional fluency (TOEIC 990)

Italian

Advanced level (B2 CEFRL)

HOBBIES

Sports

Gymnastics · Ski

Music

Trumpet (solo, orchestras)

EDUCATION

Grenoble Institute of Technology and Management

Master's degree — September 2020 - Grad. June 2023

- Leading engineering school specialized in computer science and applied mathematics.
- Specializing in Software and Systems Engineering.
- Courses :
 - Programming (C, Python, Java)
 - Algorithms (Dynamic Programming, Recursion, Optimization)
 - Databases (SQL, Database Conception)
 - Computer networks (Internet Protocols, OSI Model)

Lycée Faidherbe

Undergraduate studies — September 2018 - June 2020

- Intensive undergraduate studies in Mathematics and Physics.

EXPERIENCE

Wilyz

Remote, Freelance — January to April 2022

- Development of the entire front-end and back-end of the MVP for an e-commerce website for cars and trucks, using SvelteKit and NodeJS with MongoDB.

Dashdoc (dashdoc.eu)

- Dashdoc builds digital tools for the road freight transport industry.

Remote, Freelance — End of 2021

- Migration of the marketing website from Gastby v3 to v4.
- Migration of SQL queries and dashboards from Redash to Metabase.

PROJECTS

Weather Forecast Application

- Built using React and the OpenWeatherMap API (more detail on [GitHub](#)).
